ShhS

Hi Tiffany,

I have reviewed the documentation I have here regarding the two new program majors. Please accept this e-mail as confirmation that both majors have been approved by the Chair, Dean and lastly by me.

All the best,

Deb

Hi Deb,

Susan and I were reviewing the new GAP1 majors yesterday and she would like something in writing (email is fine) from you approving the new majors. There is the new Health Sciences Major which is Certificate only and the Aboriginal Studies Major which is both Certificate and Diploma. If you need further information please let me know.

Thank You,

**Tiffany McCallum | Customer Service Representative**

**REGISTRAR**

**The Attached DA Drafts are drafts only; they represent an attempt to format our program in the format and format of the present, on-system DA reports. They are not generated by LFACS.**

**Summary Information:**

The forthcoming 12/13 DA changes are being submitted for approval, by exception, as the GAP1 program structure and curriculum is set to undergo significant changes starting Fall 2012.

At present, the program structure holds elements that significantly prohibit student transferability, both within and beyond the program.

Additional progression issues remain in the present, ladder curriculum which reduce the elective choice of students and inhibit the smooth transition from one program major to another.

These elements of the program, at present, represent significant challenges to timely graduation and advancement in what is essentially a preparatory program, the first point of contact in the College for many of our students.

**Inherent in the new proposed program structure are the following two, new program majors:**

- First Nations Studies Major\*
- Science Studies Major\*

**All other existing majors exist, with the following program levels, inclusive:**

1. General Studies Major: Certificate and Diploma
2. Film Studies Major: Certificate and Diploma
3. Liberal Studies Major: Certificate and Diploma
4. Media and Design Fundamentals Major: Certificate only
5. \*First Nations Studies Major: Certificate and Diploma
6. \*Science Studies Major: Certificate only

Please feel free to contact Stephen Patterson, Program Manager, The School of Language and Liberal Studies for addition information on these changes and/or questions related to the operationalization of these program changes.

Thank-you.

## PROGRAM/CURRICULUM "RATIONALE FOR CHANGES" DEC 01 2011

REGISTRAR

All requests for changes to programs of instruction must be submitted to the Registrar's Office by December 1st each year for changes to be implemented for the following September intake. All changes require the approval of the Dean and possibly the VPA's Office, if significant.

REMINDER: We need to ensure that changes are made properly and in a timely manner to: maximize student success; optimize employment preparation; meet all quality and integrity responsibilities to MTCU, PQAPA and our Board of Governors; and meet community expectations.

→ The **Program/Curriculum "Rationale for Changes"** should be completed using this template and all areas must be completed. An electronic copy of this document should be submitted to the Registrar's Office.

→ The Dean/Chair responsible for the program should consult with other affected schools and obtain the appropriate sign-offs on a paper copy of this document. Once all consultations and sign-offs have occurred, the paper copy should be submitted to the RO

→ Course Request Forms must also be submitted electronically to Strategy and Planning for all new courses. These will be forwarded to Scheduling following approval of the changes by the Dean and possibly the VPA's Office.

## 1.0 Program Requiring Changes

Program Title:	AS/GAN	
Program Alpha & Number:		
Effective Catalog Year:		

*Please answer each of the questions below, if applicable. Missing or incomplete information may delay approval and/or implementation of the proposed changes.*

## 2.0 Rationale for Changes

2.01 Provide a brief description of the reasons for the proposed changes.

--

## 2.02 Students

- Are changes a response to student feedback? Or our Programs Data Report - Weak Factors? (summarize how changes address this issue)
- How will changes affect student learning and success? (describe evidence to support this)
- How will changes affect cost of the program for students? (e.g., materials fees; equipment fees - laptop program; OSAP implications)
- How will changes affect the flow of the program?

### 2.03 Relationship of Program to Industry

- How do changes reflect trends in the field or in industry? (Provide data regarding industry and/or professional trends.)

### 2.04 Program Learning Outcomes

- How do the changes align with Ministry outcomes? (Provide a copy of the completed program map indicating gaps/overlaps that are being corrected)

### 2.05 Relationships with Other Fanshawe College Programs

- Is this course in a laddered program or part of any other Fanshawe College program?

### 2.06 Relations with Other Post-Secondary Programs

- How will the changes affect transfer agreements with other post-secondary institutions?
- What discussions have been initiated with these institutions regarding the changes?

### 2.07 Changes on Fit of Program with general College Requirements for Programs

- How do changes affect the fit of the program with the College's strategic plan, program mix, general education requirements, marketing?
- Are changes consistent with Colleges policies/practices? (Identify specific areas where policies/practices need to be altered if program changes approved.)

## 3.0 Consultation Regarding Proposed Changes

### 3.01 Consultation With Program Advisory Committee

- Indicate feedback from the program advisory committee regarding the changes.

### 3.02 Consultation With Other Programs/Schools/Services

- What programs/schools/services have been consulted?
- What feedback and suggestions have been offered through consultation?

## 4.0 Resource Implications of Proposed Changes

### 4.01 Staffing

- Outline all staffing consequences, both for the program and related areas.

### 4.02 Services

- Outline all consequences on other areas.

### 4.03 Space or Technology Requirements

- Outline how changes affect space and/or technology requirements.

### 4.04 Budgetary Implications

- Outline budgetary implications (include consequences on other schools such as increase/decrease in teaching hours required)
- Outline changes to materials fees.

**BIOL-1005 - Biology - An Introduction**

This is an introductory course in biology where emphasis is limited to metabolic process in biology at the cellular level. The topics discussed will include cell structures and functions, DNA structure and protein synthesis, evolution, molecular genetics and population dynamics.

[to top of page](#)

**BIOL-1012 - Human Biology**

The content of this course will continue from BIOL-1005 and provide the student with a basic understanding of anatomical and physiological features in animals and plant functions and development.

[to top of page](#)

**CHEM-1002 - Qualifying Chemistry I**

CHEM1002 is a lecture course for students who may have not previously studied chemistry. This course in conjunction with CHEM3001 will provide an excellent basis for further college level chemistry courses. This course teaches terminology, classification of matter, nomenclature, chemical formulae, chemical equations, calculation of quantitative composition of compounds, the mole concept, stoichiometry and related problem solving.

[to top of page](#)

**CHEM-3001 - Qualifying Chemistry II**

This course covers modern atomic theory and the periodic table; chemical bonding, gases, and gas laws, liquids and solids;

solutions and concentrations; acids bases and salts; oxidation-reduction reactions; an introduction to nuclear chemistry and an introduction to organic chemistry.

[to top of page](#)

#### **MATH-2004 - Math-Arithmetic & Algebra Intro**

This course is a preparatory mathematics course. It is designed to build the skills and understanding of fundamental mathematics and introductory algebra needed for the subsequent course, Math-2009. It also provides the background mathematics needed for programs where mathematics is applied.

[to top of page](#)

#### **MATH-2009 - Qualg Math for Tech-Algebra&trigonometry**

The course is a preparatory mathematics course. It is designed to build the skills and understanding of algebra, geometry and trigonometry needed for the subsequent courses. It also provides the mathematics needed for programs where Grade 12 College Apprenticeship mathematics is required for entrance to the program.

#### **PSYC-1065 - Psychology 1**

Have you ever wondered why you or someone else behaves in a particular way? If so, then welcome to Introductory Psychology! Psychology is the study of who we are and why we do what we do: our thoughts, feelings, and behaviours. This two-part course will offer you opportunities to explore the various aspects of Psychology, including the development of the mind, how we learn and remember what we do, and how we interpret the world around us. We will discuss topics in genetics, cognition, language and behaviour, and apply them to our everyday lives.

#### **SOCI-1043 - Sociology 1**

Are you curious about why some things in society change while others stay the same? Who controls our social world? What drives people to make the choices that they do? These are examples of some of the questions we will be answering together in Introductory Sociology. As we uncover the answers, we will examine assumptions related to the ideas of freedom, equality, and democracy that shape our understandings of life options. The specific topics we will engage cover a wide range of sociological enquiries about culture, deviance, crime, sex, gender, poverty, and globalization.

#### **SOCI-1044 - Sociology 2**

Do you believe that you control your own destiny? In part two of introductory sociology we will question many common assumptions. We will take a critical look at the myths, stereotypes, and beliefs that give us a false impression of our social worlds. Can we trust everything the media tells us? When did black become worth less than white? Who truly profits from your education? Whose interests does our government really support? In order to arrive at the most complete answers to these questions and others, we apply a sociological investigation to the topics of family, media, politics and economics, race and ethnicity, education, and religion.
